

# The Blind Man

## Mono

Searching for the answers but we've lost our way  
No one ever stops to hear what you've got to say  
I'm locked inside of you, let me out  
Trapped in the vision of what there about Looking for a reason that will never be  
I am not the person that you think you see  
There's something wrong here, there's no doubt  
You're like a blind man, can't see our If he can't hear, he must feel, if he can't feel, he must see  
If he can't hear, he must feel and if he can't see you  
Feel the need in me, feel the need in me, feel the need in me Walking through a shallow empty word of doubt  
I'm in the picture now but you want me out  
There's something strong here you don't see  
You've gone too far now, so empty If he can't hear, he must feel, if he can't feel, he must see  
If he can't hear, he must feel and if he can't see you  
Feel the need in me If he can't hear, he must feel, if he can't feel, he must see  
If he can't hear, he must feel and if he can't see you  
Feel the need in me, feel the need in me, feel the need in me If he can't hear, he must feel, if he can't feel, he  
must see  
If he can't hear, he must feel and if he can't see you  
Feel the need in me, feel the need in me, feel the need in me
