Strings Attached

New Politics

Danced all night and drank till 10
I don't even know her name
One night stands that always fade
I just wanna run away
Now cut loose!I got no strings attached to me
I got no strings attached
I'm freeSleepless nights and restless days
Will I ever get my way?
We all screw up but I deserve a chance
I wanna kiss you on your face
Heaven's just a mile away
Now cut the wire!You're a puppet!
