

Suffer

Stone Sour

Come on!

You won't admit it but it's true
I'm happy without you
I turn away and let your drama pull you in
You always said I was a fool
But something carried through
I never wanna see your face again!!

So many problems left behind
I'm sorting out my mind
This idiot has turned into a better man
I found my soul in someone else
who doesn't feel like hell
who doesn't make me wanna kill myself!!

(No! No!)
I have every right to hate you
(No! No!)
I have every right to hate you

I was leaving, Stop believing
That I'd end up right back in your arms
Now Im bleeding, fucking seething
I was through with you a long time ago

Some people suffer for no reason
But they're the ones to blame
So walk away, let it go and save yourself
Before you tell yourself a lie
Just tell that one goodbye
How much more can you take before you fucking die?

(No! No!)
I have every right to hate you
(No! No!)
I have every right to hate you

I was leaving, Stop believing
That I'd end up right back in your arms

Now I'm bleeding, fucking seething
I was through with you a long time ago

(No no no no)

(No! No!)

I have every right to hate you

(No! No!)

I have every right to hate you

I was leaving, Stop believing
That I'd end up right back in your arms
Now I'm bleeding, fucking seething
I was through with you a long time ago

Suffer! Suffer! Suffer! Suffer
