

# The Webs We Weave

## Escape The Fate

So grab this statement  
And read between the lines  
I'm walking on an edge  
That's how I stay alive  
I need a fix now  
The pills I have to take  
It helps me live a lie  
and blinds all my mistakes  
before I die  
I will have seen it all  
the mountains I have climbed  
help me enjoy the fall  
Oh the webs you weave  
We are caught in the fame  
the passion's dead  
the life you've lead  
has drown in your shame  
oh the webs I weave  
I am caught in this game  
my passions dead  
the life I've lead  
has drowned me in vain  
so paint my portrait  
the colours of my life  
and the untold stories are painted in black and white  
i can hear the footsteps  
that follow to my pulse  
this paranoia has haunted me like a ghost  
before I die  
I will have seen it all  
the mountains I have climbed  
help me enjoy the fall  
  
Oh the webs you weave  
We are caught in the fame  
the passion's dead  
the life you've lead  
has drown in your shame  
Oh the webs I weave

I am caught in this game  
my passions dead  
the life I've lead  
has drowned me in vain  
I will have seen it all (seen it all) [x2]  
I'm killing time  
Let me go  
(before I die)  
(I will have seen it all)  
it reads their minds  
brings them close  
(before I die)  
(I will have seen it all)  
Oh the webs you weave  
We are caught in the fame  
the passion's dead  
the life you've lead  
has drown in your shame  
Oh the webs I weave  
I am caught in this game  
my passions dead  
the life I've lead  
has drowned me in vain
