

Love Me Now

Head East

Well, I see my woman about once a week
But I call her everyday
Each time when she holds me tight
There's only one thing I can say You better love me now
'Cause I'll be gone tomorrow
You better love me now
'Cause I'll be down the road When I flew into town about half past four
That's when the phone began to ring
All the girls started callin' then I kept on stallin'
All I wanted was just your sweet thang You better love me now
'Cause I'll be gone tomorrow
You better love me now
'Cause I'll be down the road Love me now
'Cause I'll be gone tomorrow
You better love me now
'Cause I'll be down the road You know we go 'til the truck stops every night
Then we walk out on the stage
So when the crazy thing is over we're rollin' in clover
Then we're off on another round You better love me now
'Cause I'll be gone tomorrow
You better love me now
'Cause I'll be down the road
