

# I See The Light

## Mandy Moore

Mandy Moore:

All those days watching from the windows

    All those years outside looking in

    All that time never even knowing

        Just how blind I've been

Now I'm here, blinking in the starlight

    Now I'm here, suddenly I see

    Standing here, it's all so clear

        I'm where I'm meant to be

        And at last I see the light

    And it's like the fog has lifted

        And at last I see the light

        And it's like the sky is new

    And it's warm and real and bright

    And the world has somehow shifted

    All at once everything looks different

        Now that I see you

Zachary Levi:

All those days chasing down a daydream

    All those years living in a blur

All that time never truly seeing

    Things, the way they were

Now she's here, shining in the starlight

    Now she's here, suddenly I know

    If she's here it's crystal clear

    I'm where I'm meant to go

Mandy & Zachary:

    And at last I see the light

Zachary Levi:

And it's like the fog is lifted

Mandy & Zachary:

    And at last I see the light

Mandy Moore:

    And it's like the sky is new

Mandy & Zachary:

    And it's warm and real and bright

    And the world has somehow shifted

    All at once, everything is different

Now that I see you  
Now that I see you...
