Stockyard Fire

Tampa Red

Big trouble in the meat house
And it's all about that stockyard fire
Big trouble in the meat house
And it's all about that stockyard fire
All of the poor people kickin'
Because meat is gone up so higherLet me tell you people
What that old stockyard fire will do
Let me tell you people
What that old stockyard fire will do
It will have you eating one
And it will have you skippin twoThat old stockyard fire
Left people in misery
That stockyard fire
Left people in misery
It's got upset and wondering
Lord, what will the end beThat old stockyard fire
Sure did raise some sin
That old stockyard fire
Sure did raise some sin
Lord, it's got so many people
Eating out of the garbage can
