

# Lie To Me

[Greg Laswell](#)

One of my escape, what else can I say  
I'll play dead and you can stay  
And I'll help you kill your time  
If you help me kill my night  
And maybe one day get it rightGo ahead and lie to me  
I'll believe in anything you say tonight  
Go ahead and lie to me  
Write 'I love you' while I sleep  
And hide it for another day to findI will not confuse this with something true  
Only that what gets us through  
And I wonder down the line  
When both of us are fine  
Yeah, my mind wanders there sometimesGo ahead and lie to me  
I'll believe in anything you say tonight  
Go ahead and lie to me  
Write 'I love you' while I sleep  
And hide it for another day to findI don't mind playing the fool  
I don't mind playing the fool, no  
I don't mind playing the foolGo ahead and lie to me  
I'll believe in anything you say tonight  
Go ahead and lie to me  
Write 'I love you' while I sleep  
And hide it for another day to find
