Remember The Days

Rick Astley

Someone called me just the other day
I thought it was you, but my hopes were washed away
I picked up the telephone, it sent a shiver down my spine
I wanted to hear your voice, and talk about old times
Remember the days when we walked
The times that we talked for hours and hours
Remember the way it used to be, just you and me
Remember the days
Think it over what I say
I know it could be just like it used to be
Do you believe it baby, do you share my point of view
You know that I mean it baby, and all you have to do is
Remember the days when we walked
The times that we talked for hours and hours
Remember the way it used to be, just you and me
Remember the days
What can I do without you, how can I live without you
The day's gonna come, when I'm on the run
So I'm begging you baby please
Remember the days
Remember the days when we walked
The times that we talked for hours and hours
Remember the way it used to be, just you and me
Remember the days
What can I do without you, how can I live without you
So come on girl I'm begging you please
Come on and talk to me
The times that we walked
The days that we used to walk out in the park
Remember how it used to be
Do you remember, do you remember how good it used to be
Come on girl, I said come on girl
To the left, to the right, we're gonna rock all night
