Dogg Pound Gangstas rip  
Dogg Pound Gangstas rip Word on tha streets, see it ain't nobodies business  
Secret to keep, so keep heat, in case things get deep  
Peace box is where it starts, scarred flesh and broke hearts  
Since a kid, this is how we live Ain't nuttin' to look forward to schools full of devils  
The church don't work 'cuz all the lies  
That they tell us, ya'll it'll be hell before we get there  
Survivin' guns and drugs and see If you can deal with this germ warfare that's endin' us  
They AntiChrist, I'm antifair, antivice  
Antinice, antispice, up your life, I'll make you love it  
'Cuz it's real and you bump it 'cuz it's tight Yeah, people make the world go 'round  
And it's a gang of us all gathered up in our game colors  
Man, these my gang brotha's, what, you ain't heard of us  
You ain't never ever heard the word, murderer's We make the news what it is, you ask what is this  
We the reason why the police in business  
So run up on us with your knife and your pistols  
We'll plague your character with rifles and missils I dropped my pack and drove my back to the East Side

And a bag of them ol' hot ass skins  
Some Colt for this hand  
And some juice for this gin Ain't no bitch like this bitch I got  
'Cuz this bitch I got, clock nots and rocks  
Money, cheese, paper, fedio get doctor Nedios

And stank is steady goin' bangin' that  
 Slangin' that and hangin' that every corner  
 From up north to Dogg Pound California

 Lowlife and at the Pound while we smoke on an ounce  
 (Dogg Pound Gangstas rip)Steady plottin' on big mail, layin' in the hotel  
 Chop my quarters down to dubs and watch my dope sell

 Play and Shorty played it only twice  
 Ay, they set a eight beat, it's them and six hoes in a jeep
