

Crash

Shayne Ward

[Verse 1] It was a night like this
Under the stars one kiss
And I totally knew you were the one
And I had no reservation no...
That day is still on my mind
I play it over and rewind
But I never get why you never fell
The same way that I did
[Chorus] I wish you could've crash into me
No turning back totally
Lost in a rush the way that I was
Totally lost in you
Why couldn't you crash into me
Why can't you look past on the things
Holding you back the way that I have
Been doing the same for you
Why can't you crash into me
[Verse 2] One look is all that I needed to know
That you are for me and I didn't need
No more confirmation oh...

So why do you ask so many questions
I don't understand what makes you keep holding back
If you just let our worlds collide you'll feel so much better
[Repeat Chorus][Bridge] Why you so afraid of letting go
It's like some things gotta go
Instead its going down the road
Why don't you crash into me
No turning back totally
Lost in a rush the way that I was
Totally lost in you
Why couldn't you crash in me
Why can't you look past on the things
Holding you back the way that I have
Been doing the same for you
Why won't you crash into me (3x)
Why won't you crash woh oh
Why won't you crash into me
No turning back oh

Why won't you crash oh
Why won't you..
