

# Never Change Lovers In The Middle Of The Night

## Boney M

You and I were finished, I was through with you  
Splitting up forever, seemed the thing to do  
I said I can't stand you with your honey touch  
This time you were cheating me one time too much  
Just then I remembered that a friend I knew  
Told me one thing, I should never do  
Never, never change your lovers  
In the middle of the night  
Everything may look so different  
In the early morning light  
Never, never be too hasty  
When you're groping in the dark  
What you're getting into may be just a lark  
Keep your cool and don't change lovers  
When you're feeling sorta high  
Sorta big and high and mighty without really knowing why  
Let the heat wear off a little  
Give your man another chance  
And don't fall for someone else's song and dance  
Sure there was this guy, right next to me  
Mine just for the asking, he said he would be  
But to leave my man seemed to me all too strange  
And I'd say that I'm glad, I didn't make the change  
Now our life is almost like a paradise  
Let me pass on to you this advice  
Keep your cool and don't change lovers

In the middle of the night  
You may feel a strong temptation  
The vibrations may be right  
But who knows what's gonna happen  
You may simply lose your cool  
When you find it, you'll find out you were a fool  
Never, never change your lovers  
Under any midnight spell  
Take it easy, slow and easy  
Everything will turn out well  
Let the sunshine on a new day  
And don't move while you're uptight

Changing lovers in the middle of the night  
Never, never change your lovers  
In the middle of the night  
Everything may look so different  
In the early morning light  
Never, never be too hasty  
When you're groping in the dark  
What you're getting into may be just a lark  
Keep your cool and don't change lovers  
When you're feeling sorta high  
Sorta big and high and mighty without really knowing why  
Let the heat wear off a little  
Give your man another chance  
And don't fall for someone else's song and dance
