Close to Me

Lake Street Dive

Well you seem awfully nice
So this won't take long
I've just got to let you know
That you should be moving on
If you want my advice
I think it would be wrong
For you to get close to me
Well I can be sweet
I can be perfectly kind
I can be anything
Since it ain't my heart on the line
It would be so easy
It would be so blind
For you to get close to meMaybe I'll call you when I'm fully grown
Until that day comes, now baby won't you leave me aloneI can see you're still waiting
For some kind of sign
I know you're ready for love
But I'm never gonna make up my mind
It's not a matter of patience
It's not a matter of time
For you to get close to meMaybe I'll call you when I'm fully grown
Until that day comes, now baby won't you leave me alone
Maybe I'll call you when I'm fully grown
Until that day comes won't you leave me alone
Maybe I'll call you when I'm fully grown
Until that day comes
I recommend that you don't
Get too close to me
