

I Need You

New Kids On The Block

Girl, my heart is in your hands
I need you to understand
Please, swallow your pride
I want you to be my guide Girl, I love you, I want you
Oh, how I care
When you need me, I'll be there
I need you, yes, I do Girl, girl my love is all for you
No one else will ever do
Please, open your heart
And let in a brand new start Girl, I love you, I want you
Oh, how I care
When you need me, I'll be there
I need you, yes, I do, girl, I need you Girl, in me you got to believe
I'll be loving you and this you will see I need you, yes, I do
Girl, I need you, yes, I do
Girl, I need you, I need you, yes, I do
Girl, I need you Baby, you gotta know how much I want you
I need you oh so much, I love you, girl
