Wrecking Ball

Smile Empty Soul

This is harder than I thought
Way harder than I thought
What should I do?
What can I do?
I'm giving up
This is harder than I thought
Way harder than I thought
What should I do?
What can I do?
I'm giving up
I'll see you on the next star
I'll meet you at the next part
So bring on the wrecking ball
Get ready for some changes
Transitioning of ages
So bring on the wrecking ball

This is harder than I thought
Way harder than I thought
What should I do?
What can I do?
I'm giving up
This is harder than I thought
Way harder than I thought
What should I do?
What can I do?
I'm giving up
Get ready for some changes
Transitioning of ages
So bring on the wrecking ball
This is harder than I thought
Way harder than I thought
What should I do?
What can I do?
I'm giving up
