

Congratulations

Jebediah

He's comin' 'round tonight
Catchin' the train out
Started work today
It's no fun but it pays One thing that you're sure of
He won't ever let you down Supposed to leave at eight
But the sitters late
Times run out to go
To that evening show One thing that you're sure of
He won't ever let you down He could never hurt you
But it's so much to get involved, involved I drowned in glory
To tell this story
Of self denial
And choices final He was there for you
When your ex shot through
But can you really count
On him stickin' round? One thing that you're sure of
He won't ever let you down He could never hurt you
But it's so much to get involved, involved I drowned in glory
To tell this story
Of self denial
And choices final Can't change what happened
My youths been shattered
Now can I really
Bring him down with me? He can't play father to your son
When he's eighteen years young I drowned in glory
To tell this story
Of self denial
And choices final Can't change what happened
My youths been shattered
Now can I really
Bring him down with me?
