

Whoa Now

Louque

everlasting day
said im searching for your heart
im alone today
but the waiting here is not
tell me the way
and i wont be ever gone
i wont betray
if you wont have me i'll be lost
say,woah now
have you seen a pretty love she's far away
hoping that she's alright,
i love my baby cause she's alright(x2)everlasting day
said im searching for your heart
tell me a way
from the blind im dreaming in
let me relay
all your light that leads me in
i wont betray
if you wont have me i'll be lostwoah now
have you seen a pretty love she's far away
hoping that she's alright,
i love my baby cause she's alright(x4)
