

Love Crime

Westlife

I didn't know what to say
Tried to look the other way
When I saw you there with him Acting like I don't care
But you can read from how I stare
That I'm hurting deep inside But even though you look so good tonight
I'll be fine But I know that for you
To be here without me by your side
It's a love crime Why you act so surprised
I can tell from the guilt in your eyes
It's a love crime to me Love has never been good to me
Maybe it's just my destiny
To live my life alone Who was I trying to fool
Thinking our love would break the rule
Still I'm standing on my own And even though you look so good tonight
I'll be fine But I know that for you
To be here without me by your side
It's a love crime Why you act so surprised
I can tell from the guilt in your eyes
It's a love crime to me
It's a love crime Here I am not knowing
Tell me what to do But I know that for you
To be here without me by your side
It's a love crime Why you act so surprised
I can tell from the guilt in your eyes
It's a love crime to me But I know that for you
To be here without me by your side
It's a love crime Why you act so surprised
I can tell from the guilt in your eyes, in your eyes
It's a love crime But I know that for you
To be here without me by your side
It's a love crime Why you act so surprised
I can tell from the guilt in your eyes, in your eyes
It's a love crime to me
