

Next To You

Kay

You gon' make me lose my mind
You gon' make me lose my cool
Tornado tearin' up this heart
Every time I'm next to you. Broken bottles, broken pieces
I am lying on the floor
You can take them where you need them
Just tell me what you're looking for. I've heard it all before
You're the one who's opened my eyes
I can't deny that the stars will shine like a summer night in July
When I'm next to you... You gon' make me lose my mind
You gon' make me lose my cool
Tornado tearin' up this heart
Every time I'm next to you. Turn it up
Oh, yeah
When I'm next you...
