

San Francisco Song

Camera Obscura

San Francisco song(Keep it clean EP - 2004)You know I cannot stand your love for alcohol

You're such a tall man but you're looking kind of small

I'll send you movie stills to rid you of your ills

Because you're illNow you're finding out I'm hard to please

You'd better watch your mouth you'll bring a girl close to tears

I ripped up my lyric book, gave myself the blackest look

Black looks
