

Please Play This Song On the Radio

NOFX

We wrote this song, it's not too short, not too long
It's got back-up voc's in just the right places
It's got a few oohs and ahhs
It takes a little pause
Just before I sing the anthem Please play this song on the radio
Almost every line is sung on time
Almost every verse ends in a rhyme
The only problem we had was writing enough words
But that's okay because the chorus is coming up again now Please play this song on the radio
Please play this song on the radio Right about this time
Some shithead will be drawin a fat fucking line
Over the title on the back sleeve, what an asshole
So Mr. DJ, I hope you already made your segway
Or the FCC is gonna take a shit right on your head
Can't play this song on the radio
