

If You Were Mine (Live At Gelredome)

Anouk

I lay my weapons down
Wont fight no more
Try to get you by my side
Though I have been in love before
They could never take my clouds away Babe, if you were mine
I wont hesitate at all
You just let me know
Ill be the one to catch your fall
Anything you need
Dont give me away
You make me so confused
The one I love loves someone else Dont stop the music, it feels good
It keeps my mind off me missing you
Keep the rain away
There is nothing for me here
Without you by my side Cause babe if you were mine
I wont hesitate at all
You just let me know
Ill be the one to catch your fall
Anything you need
Dont give me away
You make me so confused
The one I love loves someone else Baby whats it gonna be?
Is it gonna be her or me?
Tell me what I have to do
Cause I know that Im good for you And babe if you were mine
I wont hesitate at all
You just let me know
Ill be the one to catch your fall
Anything you need
Dont give me away
You make me so confused
The one I love loves someone else Babe, if you were mine
If you were mine
Babe, if you were mine Babe, if you were mine If you were mine
