

Something Changed

Sara Groves

Something changed inside me
Broke wide open, all spilled out
Till I had no doubt
That something changed Never would have believed it
Till I felt it in my own heart
In the deepest part
The healing came And I cannot make it
And I cannot fake it
And I can't afford it
But it's mine Something so amazing
In a heart so dark and dim
When the walls fall down
And the light comes in And I cannot make it
And I cannot fake it
And I can't afford it
But it's mine And I cannot make it
And I cannot fake it
And I can't afford it
But it's mine And I cannot make it
And I cannot fake it
And I can't afford it
But it's mine, but it's mine
But it's mine Oh, thank You, Lord
Thank You, Lord, thank You, Lord Leave it like a skin upon the ground
Something changed inside me
Broke wide open, all spilled out
Till I had no doubt
That something changed
