

# Only In the Movies

**David Mead**

Pack all your things up, don't get upset  
Soon you should leave 'cause sooner you'll forget  
Was it a dream or maybe a mess  
Give you a pinch and take a wild guess You could be mistaken, lost in how it ends  
'Cause only in the movies things make sense  
Let every stupid story take away your doubts  
'Cause only in the movies things work out God and all His angels must be surprised  
At every little promise that turns into a lie  
If she were a picture framed in golden wood  
Could you really miss her  
Would you? Still life and memories waltz out the door  
Is there relief in wanting what was yours  
No friend or doctor knows what to say  
Blind to forever standing in the way
