

Fool In the Full Moon

Violent Femmes

I've been following women, all afternoon
Don't turn around too soon
I've been following you all afternoon
Following you a fool in the full moon
Something's got a hold on me, when I get a hold of you
Following women after dark
Nobody knows what's in my heart
Let your loving be I'm a lechery
I do not spread leprosy
I will not touch but let me see
My building's burning down and I cannot breathe
Following you who won't believe
Perfect peace I cannot perceive
When I'm following you, I'm a fool in the full moon
