

# Becky from the Block

## Becky G

I wont stop till I get to the top  
Im so Im so Becky from the block  
Always had a little, but I want a lot  
No matter where I go I know where I came from I wont stop till I get to the top  
Im so Im so Becky from the block  
Always had a little, but I want a lot  
No matter where I go I know where I came from Yo, first grade, Oak street elementary  
A few blocks from the Englewood cemetery  
I lived through hard times, according to my memory  
Then I learned to rhyme like Im reading off the dictionnary  
I still walk to the Kelso Market  
Even though I get to walk them red carpets  
My family lived in my grandpas garage  
So I started working just to help out my pops  
It all started when my grandpa crossed over  
Now one day Imma be a crossover  
Right now its just who is that girl?  
But one day Imma be all around the world  
I still get grounded, always stay grounded  
Still do chores even when Im on tour  
One things for sure, Ima always be me  
That west side Becky, Becky GI wont stop till I get to the top  
Im so Im so Becky from the block  
Always had a little, but I want a lot  
No matter where I go I know where I came from I wont stop till I get to the top  
Im so Im so Becky from the block  
Always had a little, but I want a lot  
No matter where I go I know where I came from Yo what you know about the in and out lines  
And what you know about that 45 drive  
My life is changing quickly right before my eyes  
It hits me every time that Im on Hollywood divine  
If you wanna date me, you gotta ask my Daddy  
And my 30 uncles, you can meet them in an alley!  
And one day Ima bring home a Grammy  
But no matter what Ill be bringing home randies  
Donuts, so what, holler when you see me  
Im still the same B, even when Im on TV  
Still rocking Js with my diamonds and pearls  
You can take me out the hood, but not the hood out of the girl

Yes I love sushi, love my calamari  
But aint no better chef than my very own mommy  
If you cant catch me warming in my barrio  
Im with my abuelitas praying the Rosario  
Englewood, Englewood, EnglewoodI wont stop till I get to the top  
Im so Im so Becky from the block  
Always had a little, but I want a lot  
No matter where I go I know where I came fromI wont stop till I get to the top  
Im so Im so Becky from the block  
Always had a little, but I want a lot  
No matter where I go I know where I came fromI wont stop till I get to the top  
Im so Im so Becky from the block  
Always had a little, but I want a lot  
No matter where I go I know where I came fromEnglewood, Cali girl for life,  
Shout outs to Jenifer Lopez  
Latinos stand up!
