

Times Square

[Derik Fein](#)

She's from another dimension
Her beauty's projection
of what love should be
I wont stop writing love songs until we meet
On my libra scale baby you a ten
I wrote so much you made me break my pen
Can I buy you a Range Rover
Baby don't be scared come closer
If she ever gives me the time of day
we'd pack our s*** and just flee the state
Whoahh She's that girl
in the middle of Times Square
she stands out
The most beautiful thing in the world
She's that girl in my in my dreams
She's that girl We felt a silent connection
in fear of rejection
I haven't slept in weeks
I won't stop over thinking until we meet
On my libra scale baby you a ten
I wrote so much you made me break my pen
Can I buy you a Range Rover
Baby don't be scared come closer
If she ever gives me the time of day
we'd pack our s*** and just flee the state
Whoahh She's that girl
in the middle of Times Square
she stands out
The most beautiful thing in the world
She's that girl in my in my dreams
She's that girl If i could bring her to reality, She's still trapped inside my dreams. X2 Whoahh
