

Penalty

í•¬ěž~î%oo¬ (Crash)

What's inside my state of mind
Can you deal with reality?
Who pays the price for hating?
Who decides our final fate? Can you really trust the government
Can you really believe the truth?
Will you die for what you believe
Or will you suffer like a fool? Sacrifice
Penalty
You gave your life
And paid the price of hate Hate
Who pays the price for hate? Is there anyone you can count on
When it's time to do things right?
Or are these people just fucking maggots
Sucking you for all your life? Who looks out for our best interests
Who cares about their fellow man?
Or are we all just fucking animals
Fucking each other anytime we can? Sacrifice
Penalty
You gave your life
And paid the price of hate Hate
Who pays the price for hate? Who's gonna beg for mercy
When the time to fight back comes?
Get down on bended knee and pray
For our salvation What's inside my state of mind
Can you deal with reality?
Who pays the price for hating?
Who decides our final fate? Sacrifice
Penalty
You gave your life
And paid the price of hate Sacrifice
Penalty
You gave your life
And paid the price of hate Who's gonna beg for mercy
When the time to fight back comes?
Get down on bended knee and pray
For our salvation Get down on bended knee and pray
For our salvation
