Wait

Kate Plummer

Where did you go?
Stand where you stood an hour ago
You've taken the place of someone I used to know

He ran away without saying goodbye
He took his shadow
But left his soul behind

Wait
Don't go out there tonight
Cause it's not safe
Don't go out there tonight
White lines the claws of an animal

Holding out for a high
But these trees are taller than you can climb
The weight of your transparent load will drop you to the ground
What is it that you want to feel?

Wait
Don't go out there tonight
Cause it's not safe
Don't go out there tonight
White lines the claws of an animal

The claws can tear you apart
Leave shreds of your former beating heart
You life can barely breathe

So just wait
Don't go out there tonight
Cause it's not safe
Don't go out there tonight

Wait
Don't go out there tonight
Cause it's not safe
Don't go out there tonight
White lines the claws of an animal
