

It's All Rushing Back

Teen Men

Holding your breath
It's all rushing backSeasides and cigarettes
Rocks in your shoes
And gum on your dress
Late nights out to toast success
Stairs to descend
And friends to impressHolding your breath
It's all rushing back
Perfecting arcane dancing steps
With rhythms kept on castanets
Heading back to apartments
With songs on repeat
And lips like magnetsHolding your breath
It's all rushing backHead spinning
Ears ringing
Voices start to crack
Feels like it's all rushing back
Seasides and cigarettes
Rocks in your shoes
And gum on your dress
Turning your head
And stopped in your tracksA pinch in your neck
It's all rushing back
