Horny

Void

I've been sittin' here all night long
I've been sittin' here for way too long
Will somebody tell me what's goin' on
Will somebody tell me what I'm doin' wrong
'Cause girl's come and girls yes they go
I wish these girls would just let me know
Can I take you home tonight
Is my future with you looking bright
A wink ain't nothin' but dust in your eye
Eye contact is like sayin' hi
Flirting and just makin' time go by
It seems nothin' works even though I try
So this is what we're gonna do
You make it easy for me I'll make it easy for you
Just clap your hands just clap your hands
Just clap your hands if you're horny
If you're horny and you know clap your hands
If you're horny and you know clap your hands
If you're horny and you know and you really want to show
Well get on my lap and do a dance
I keep on lookin' at her like I got game
?What's your sign girl what's your name??
?Are you lookin' at me like I'm lookin' at you??
Later on baby doll we'll be cookin' for two, yeah
'Cause girl's come and girls yes they go
I wish these girls would just let me know
Can I take you home to night
Is my future with you looking bright
All this conversating it's so frustrating
All this in-between waiting that comes along with dating
Masturbating would be just fine
We're just wasting time with these pick up lines
So this is what we're gonna do

You make it easy for me I'll make it easy for you
Just clap your hands just clap your hands
Just clap your hands if you're horny
If you're horny and you know clap your hands
If you're horny and you know clap your hands

If you're horny and you know and you really want to show
Well get on my lap and do a dance
Put your hands back on
Put your hands back on
Put your hands back on
If you're horny and you know clap your hands
If you're horny and you know clap your hands
If you're horny and you know and you really want to show
Well get on my lap and do a dance
If you're horny and you know clap your hands
If you're horny and you know clap your hands
If you're horny and you know and you really want to show
If you're horny and you know clap your hands
If you're horny and you know clap your hands
If you're horny and you know clap your hands
If you're horny and you know and you really want to show
Well get on my lap and do a dance
If you're horny and you know clap your hands
If you're horny and you know clap your hands
If you're horny and you know and you really want to show
If you're horny and you know clap your hands
If you're horny and you know clap your hands
If you're horny and you know clap your hands
If you're horny and you know and you really want to show
Well get on my lap and do a dance
If you're horny and you know clap your hands
