come the morning,
I might know why
I still miss you,
got a long long way to gofeel the morning,
wherever you are
could you spare me,
a tought from a far
farwhat's the use in reasoning with someone I can't face
once you were special,
you showed me how I need to go
now one day they'll find you,
I guess you don't wanna knowyou were changing,
yeah you made me cry
but not to worry,
I can laugh about you nowgot a good friend,
to see this lifetime through
come the morning,
I might spare a thought to you
youwhat's the use in reasoning with someone I can't face
once you were special,
you showed me how I need to go
now one day they'll find you,
I guess you don't wanna knowoh no insanity's done it again,
makes me feel so filthy
oh no insanity's done it again,
but I know you're guiltyI know that you're guilty, guilty yeah
I know that you're guilty, guilty yeah
This time it seems we have nothing to share
This time it seems we have nothing to share
