

# Speeches

## Walk Off The Earth

The second snow was heaven sent  
You laid out like evidence  
Read all the words you never said  
Like speeches for the president  
I drew your name in wet cement  
Made promises in reverence  
To save you for your reference  
A victim of circumstance but  
Oh, when you lay your hands on me  
I know that I can heal  
There's a blinding light that no one else can see  
Nobody no, nobody but me  
Oh oh oh oh oo oh

Nobody no, nobody but me  
Oh oh oh oh oo oh  
Nobody no, nobody but me  
The signatures did finalize  
Our pens had found the bottom line  
The past that had me paralyzed  
And all my future analyzed  
Do you think we got it right  
The world will disagree this time  
Will it turn the wicked tide or be a ghost that keeps us up at night but  
Will I never know your name cause I want to?  
Did you ever care to say that you want me?  
That's all I wanted
