

Mein Fuhrer

Mechanical Cabaret

Say something: anything at all
Let's see you try to keep me enthralled
I really admire your inspiring words
And the way you come out with things I've never heardÃ¤Intelligence hasn't left you behind
So come on: lets hear you speak your mind
I'm so impressed by your eloquence
I could learn a thing or two from you...Chorus:
You get away with murder
But you know you'll get no further
Because you're such a loser
Oh, Seig Heil Mein FuhrerÃ¤
Fuck yourself with your ridiculous views
I'm bored and you're worthless
And the few like me who disagree that you're God
Well, We'll go to Hell
Which is just as well...
