On Me

Nick Hall

(On me, on me on me on me, on me on me on me) x2

Girl I know, if we get up on this dance floor tonight
We gon' break every rule that we ever been told is right
'Cause you know I wanna see if we can make a scene
Nothing here holdin us back from keeping you off of me

You should know, I wanted you from the moment you walked in
Like a model, I recognise it's all about to begin
'Cause if you get with me, I'll be your ecstasy

If you want me I can hold your body close
'Cause baby, if you want me I want you to never know
On me, on me, wanna see what you can do on me
On me, on me, wanna see what you can do on me

Here we go, you're puttin on a show, and you're making me want some more
The best move imma do all night is getting you out the door
'Cause when you come with me, you'll never wanna leave

If you want me I can hold your body close
'Cause baby, if you want me I want you to never go

If you want to you can show me what you wanna do
If you want to I can show you what I wanna do too

You and I together
Got me thinking it's forever
There's no way this could get better
Ohh, no no, no no

If you want me I can hold your body close
'Cause baby if you want me I want you to never know

If you want to you can show me what you wanna do
If you want to I can show you what I wanna do too

On me, on me, wanna see what you can do on me
On me, on me, wanna see what you can do on me
On me, on me, wanna see what you can do on me

On me, on me, wanna see what you can do on me

(On me, on me on me on me, on me on me on me) x2
