Running In the Night

Triumph

Late in the evening, emotions running wild
The shivers in your fingers tell no lies
I know I make you crazy
I don't wanna break your heartOoh, come with me, girl
Running in the night, tonight
Stay with me until the morning light, tonight
I can feel the fire burning bright, tonightTime goes on and on until the well runs dry
Waiting won't turn water into wine
Stand still for a moment
And frozen for all timeOoh, come with me, girl
Running in the night, tonight
Stay with me until the morning light, tonight
I can feel this fire burning bright, tonight
Stay with me until the morning, girl, tonightOh girl, come to me tonight
You know we'll make this fire grow
Listen to the sirens in your soulRunning in the night, tonight
Stay with me until the morning light, tonight
I can feel this fire burning bright, tonight
Stay with me until the morning, girl, tonightYou know that we always [Incomprehensible]
This feeling just can't [Incomprehensible]
