

Bright Fire

Koryn Hawthorne

[Verse 1]

We've been driving for a while and
I guess I got a lot of miles in
But all of those miles they came from you
I've seen a lot of valleys and mountains
I've seen a lot of falls and fountains
And no matter the storms, we made it through[Pre-Chorus]
You want someone to listen, here's an ear to talk to
You want somewhere to go, here's someone to walk you
You want someone to hug you, and you know that they care
You want someone to ask, and is always there
A roof over your head, and provide you a meal
Who always gets it right, I mean come on keep it real
And yes there's ups and downs but this time it ain't you
So you can understand what I'm sayin', can't you?[Chorus]

He's my bright fire

Oh, yes he is

He's my live wire

Oh, yes he is[Verse 2]

I can see it in their faces, everybody thinks I'm crazy yeah

Well what am I supposed to do?

This is not a sensation, I've been through all the phases

I gotta say thank you, you brought me through

I just wanna share these things, share these thing

Share these things with you[Chorus]

He's my bright fire

Oh, yes he is

He's my live wire

Oh, yes he is

He took me high

Oh, yes he did

So I'm singing out loud

Hoping someone hears[Bridge]

I feel like a 747, baby

A thousand miles from heaven

Please take me high as you can

I hope we never land

I just wanna share these things, share these things

Share these things with you

I just wanna share these things, the joy you bring
Just wanna share these things with you
