

All Is Well

Emerson Hart

Rain, this rain hard falls
Pain, this pain won't stall
And I can't feelThis weight, all weight all still
Break, to break my willSo say
These words
Let them ring out true
And scream
The scream
It's inside of you
All is well
All is wellRest, in rest you'll find
Peace, true peace knows timeSo say
These words
Let them ring out true
And scream
The scream
It's inside of youSometimes there won't be answers
Until you let 'em go
So let 'em goSo say
These words
Let them ring out true
And scream
The scream
It's inside of you
All is well
All is well
All is well
All is well
