

Full Circle

Obey the Brave

Listen up
We've never met, yet our worlds connect
I'll never forgive, never forget
I'll save you the speech
I'll spare you the drama
But I can promise you one thing: Karma
What goes around, comes around
You'll get what you deserve
Your fate is sealed
You've got some nerve
Feel the pain that's buried inside
You can run but you can't hide
You can run and hide in the shadow
But make no mistake, you reap what you sow
Make no mistake, you reap what you sow
There's no escaping the cycle
Better watch your back; Full Circle
I'll save you the speech
I'll spare you the drama
But I can promise you one thing: Karma
What goes around, comes around
Retribution awaits
Your fate is sealed
You're done, checkmate
Feel the pain that's buried inside
You can run but you can't hide
You can run and hide in the shadow
But make no mistake, you reap what you sow
Make no mistake, you reap what you sow
There's no escaping the cycle
Better watch your back; Full Circle
Better watch your back; Full Circle
The innocent, we mourn
Vengeance is sworn
Time to sound the horn
Vengeance is sworn
Wounds heal but the scars remain
In the end, you'll kneel
Your pain is my gain

Torn within
Bare a crown of thorns
The innocent, we mourn
Vengeance is sworn
Feel the pain that's buried inside
You can run but you can't hide
You can run and hide in the shadow
But make no mistake, you reap what you sow
Make no mistake, make no mistake
One day, the tables will turn
I'll celebrate as I watch you burn
There's no escaping the cycle
Better watch your back; Full Circle
I'll save you the speech
I'll spare you the drama
But I can promise you one thing: Karma
