

# After All These Years

Eddy Arnold

After all these years  
All of the smiles and tears  
It's still a thrill to be  
With you when you're with me

After all this time  
I haven't changed my mind  
Girl you're still my sunshine  
After all these years

Through the good and bad  
The Happy times and sad  
My heart still feels the same  
I wouldn't change a thing

And I know it's true  
You feel this same way too  
Our love is good as new  
After all these years

-Instrumental-

Through the good and bad  
The Happy times and sad  
My heart still feels the same  
I wouldn't change a thing

And I know it's true  
You feel this same way too  
Our love is good as new  
After all these years
