Unbelievable

Justina

[Verse 1]
It was always something
That I was doing wrong
You gave me nothing
But stress to move on
There will be no other
I mean no no other James
You were my lover
This is all I say[Bridge]
I can do bad all by myself
You made me weak
Boy I needed it
Been down in that
But now I need nothing from you
Said
I can do bad all by myself
You turn me into somebody else
I couldn't stand my own reflection
Wither away the pride of affection[Chorus]
I thought I needed you (needed you)
But now I'm leaving (leaving you)
For the first time I ain't feening you
Only so damn unbelievable
I thought I needed you (needed you)
But now I'm leaving (leaving you)
For the first time I ain't feening you
Only so damn unbelievable[Verse 2]
See you left me alone
I got nothing left inside
So I drown in sorrow
And it's always hard to hide
You said there's tomorrow
If I make it through the night
Hard pill to swallow
So I gave up the fight[Chorus]
I thought I needed you (needed you)
But now I'm leaving (leaving you)
For the first time I ain't feening you
Only so damn unbelievable

I thought I needed you (needed you)
But now I'm leaving (leaving you)
For the first time I ain't feening you
Only so damn unbelievable[Bridge]
I can do bad all by myself
You made me weak
Boy I needed it
Been down in that
But now I need nothing from you
Said
I can do bad all by myself
You turn me into somebody else
I couldn't stand my own reflection
Wither away the pride of affection[Chorus]
I thought I needed you (needed you)
But now I'm leaving (leaving you)
For the first time I ain't feening you
Only so damn unbelievable
I thought I needed you (needed you)
But now I'm leaving (leaving you)
For the first time I ain't feening you
Only so damn unbelievable
