Don't Let Go

Jerry Garcia Band

Dont let go of my body shorty
i know what u want
what i can do from the back
i can do from the front, yea
so y u choosin to front
forget your man
wat i do in a day
he couldnt do in a month
and im known as a live hype man
cus i can turn 1 night
into a 5 night stand
i got a plan to take the world over
so tell ur boy
that belly got plans to take his girl over
no man theres no chance to hold hands
slow jamz, no i dont ro-mance
so wat could be u and me leavin the club
wait a minute
ur in need of a thug(haha)

dont let go of my body shorty
i know what u want
movin your body
it got me holdin u closely
i wanna come give u love
over and over until the night turns to morning
and lady just so u know
i would of never expected the way that u put it on me
and now i cant get enough
at first u were bluffing but now i know that u want me
shorty u just got to know
that ur mans got to go
he aint doin nothin for you
so u can creep on the low
come and knock on the door
and i can do somethin for you
and now your thinking so different about em
actin so different around em
goin to places without him

be'cause it means that he started
