Walking Away

Courdek

Well, hello, how are you?
Why don't you pull up a chair?
Won't you tell me a story?
'Cause I really do care about
Talking, talking, talking away
Here's to me, to you, to us
To everything, hope it never falls apart
We're talking, talking, talking away
Well, you look so fine and you seem so kind
And I gotta say that I'm having a good time
Dancing, dancing, dancing away
Here's to me, to you, to us
To everything, I hope it never falls apart
We're dancing, dancing, dancing away
Could things get any better now?
If they can, I cannot see how
But as the time goes by, you stop and sigh
You stop and sigh and then you wonder why
I can't stop feelin' as I'm walking away
And I can never understand half the things you say
And I'm walking, walking, walking away
So I said here's to me, to you, to us
To everything before it fell apart
And we're walking, walking, walking away
Things weren't better then
You felt that you had to pretend
But as time goes by, you stop and sigh
You stop and sigh and then you wonder why
