We Are Not Anonymous

Unearth

A toast for our sins
Our instincts drags us deeper
Throwing us to the wolves
The nameless were all buried long agoWe are not anonymous
The faceless burials are overThey can see us now
The lines of freedom redrawn
They can see us now
The lines of freedom redrawnHeld to our curse
We are not anonymous
Not alone
We are bound to bear this crossHeld to our curse
We are not anonymous
Not alone
We are bound to bear this crossA place for our dreams
What better way to plant the seeds
Of watch, reign and rule
The nameless were all buried long agoWe are not anonymous
The faceless burials are over
We are not anonymous
The faceless burials are over
