

# We Are Not Anonymous

## Unearth

A toast for our sins  
Our instincts drags us deeper  
Throwing us to the wolves  
The nameless were all buried long agoWe are not anonymous  
The faceless burials are overThey can see us now  
The lines of freedom redrawn  
They can see us now  
The lines of freedom redrawnHeld to our curse  
We are not anonymous  
Not alone  
We are bound to bear this crossHeld to our curse  
We are not anonymous  
Not alone  
We are bound to bear this crossA place for our dreams  
What better way to plant the seeds  
Of watch, reign and rule  
The nameless were all buried long agoWe are not anonymous  
The faceless burials are over  
We are not anonymous  
The faceless burials are over
