

Legendary

TQ

I remember days at the record store
Looking for some wax, you ask me what is that
Your days of yesteryear with 2 turned tables and a microphone
Days of do it again, if you did it wrong I would listen for hours to some Marvin Gaye
To some old MJ, to NWA
Makes you wonder sometimes
Where did your heroes go
What's up with the radio, I don't know
Touch your heart
Make it touch my heart
That's legendary
That's legendary
Stand the test
I want it to stand the test of time
That's legendary
That's legendary
Fortunate
So fortunate to find
Something legendary In the studio the ghosts of Gemini's
They write their lives all day
Play guitar all night Confused 'cause no one knows
What we feel inside
Listen to the words
Look into my eyes
We used to sing about struggle
We used to sing about pain
We used to feel each other
We used to know their names Makes you wonder sometimes
Where do we go from here
How do we grow from here
I don't know Touch your heart
Does it touch your heart
That's legendary
That's legendary
Stand the test
I want it to stand the test of time
That's legendary
That's legendary
Fortunate

So fortunate to find
Something legendary(Bridge)
And we just keep falling further and further behind
Wanna be legendary
And we just keep falling further and further behind
Wanna be legendaryx2
Touch your heart
Just wanna touch my heart
That's legendary
That's legendary
Stand the test
Make it stand the test of time
That's legendary
That's legendary
Fortunate
So fortunate to find
Something legendary
