# Absolute Zero Drive

## Hey Mercedes

attention all available ghosts take notice
we remain unafraid
opening and closing our indoor umbrellas
blessing and curse
verse and reverse
light life
absolute zero drive
we know impossible
light life
absolute zero drive
we know
harness all anger and channel it over
strongest arm
nearest wall
never ever feeling any bloody better
ripped apart
what a mark
light life
absolute zero drive
we know impossible
light life
absolute zero drive
we konw
so glory be
me merrily sucking in steam
an empty gallon of spring
a tower of tea
so wake up soldiers and take up all your arms and leave
all of the animal action to me
light life
absolute zero drive
we know impossible
light life
absoute zero drive
we know
now as as every enemy circles our city
sour and sore
we swear war
light life

absoulte zero drive
we know
