

Let's Get Down To It

[George Strait](#)

Don't need your love on a silver platter
Let's get down to the nitty grit
Let's cut out all the chatter
Get to the heart of the matter
Honey, let's get down to it Let's get down to some huggin' and some squeezin'
Arm and arm, we'd be a perfect fit
So put a freeze on the teasin'
Let's get on with the pleasin'
Honey, let's get down to it I know that you want to
I can see it when I look into those big green eyes
Baby let's come to grips
Don't play so hard to get
Honey, let's get down to it I get a chill every time you're near me
You've got my heart doin' flips
I only aim to please
If you'd let go you'd see
Honey, let's get down to it
