

# Manuela Run

Toto

Don't look now, you better watch that sword  
That's hanging over you  
It's a long hard road and they will spit you out  
When they get through with you Don't hang your head  
So the wise man said  
Boy you'll soon be dead You better run, run Manuela-uela run  
They're gonna shoot you in the back with your own gun  
You better run, run Manuela-uela run  
Manuela run There's no more time for living out your life  
Your sky is falling down  
Don't close your eyes or make a wish on three  
'Cause they will still be 'round Don't hang your head  
So the wise man said  
Boy you'll soon be dead You better run, run Manuela-uela run  
They're gonna shoot you in the back with your own gun  
You better run, run Manuela-uela run  
Manuela run, Manuela run Don't hang your head  
So the wise man said  
Boy you'll soon be dead You better run, run Manuela-uela run  
You better run, run Manuela-uela run  
You better run, run Manuela-uela run
