

There Will Come A Day (i'm Gonna Happen To You)

Smokey Robinson

You may dismiss me as unimportant.
A guy who's only in the corner of your eye.
Right now I know I'm just a?
I'm just an easy friend on whom you can depend.

But darling, there will come a day,
Oh, when you look at me, my baby, another way.
While you're relaxing, I'm gonna happen to you.
Oh.

Oh baby, oh baby.
Ew oh oh baby.
Yeah.

I only see you in little glimpses.
We work together in a world of?
I'm only dreamin' of champagne kisses.
You pass right by me, honey.

But girl, there will come a day, baby,
When you look at me, my baby, another way.
While you're relaxing, I'm gonna happen to you.
You, you

There will come a great big day, yeah,
When you look at me, my baby, another way.
There will come day, baby.
Look at me, look at me

There will come a time, baby,
When I'll be yours, you'll be mine, baby.

There will come
